

Technologist – Ingredients

Experienced in Dairy? Move to Pokeno to kick start your career in 2019.

- New premises - growth organisation
- New product innovation - expanding R&D
- Long term career opportunities

Want to be part of one of the most trusted and innovative companies in Dairy? New Location, New Premises, New Products.

The Company:

This company's vision is to be the world's most innovative and trusted dairy business. They have a high performing culture and world class facility. This is an exciting opportunity to be on the ground floor, supporting the technical team of this entrepreneurial producer of nutritional dairy products...

The Opportunity:

Providing support to the innovation and technical team, your expertise as an Ingredients Technologist will ensure compliance against national and international regulatory standards.

You will focus on product development, product specifications and production parameters with the manufacturing teams for the commercialization of consumer and ingredient powder projects.

Experience and Skills:

Experience in a food manufacturing environment with Food Safety, HACCP and tertiary qualifications in science or food engineering will make you successful in this role.

Experience in milk powder is highly desirable as well as an understanding of Regulatory Compliance requirements.

Clear communication skills, both written and verbal combined with problem solving skills will help you excel in this multi-tasking high pressure environment.
